Kevin will call tomorrow morning. I will try to figure out a way to patch you in. If I can't I'll let you know what he says. Note, we also have a request for a proposal out to URS at the Tech Center that is due back on Friday. Two of the groups we have sent a request to say they could do the work in August.

I will try to set up a conference call for tomorrow.

I think both groups have questions about the extent of work (all zones vs. just 1 zone) and the type of delineation--comprehensive vs survey. These might be questions for CSC too.
